

**Computed Tomography
Post-Procedure Instruction Sheet**

Patient _____ Date _____

Procedure _____

1. You have now completed your CT angio procedure. If you received a beta blocker, you may feel tired. Please do not drive, operate machinery, or make any major decisions today. You may resume your normal activities tomorrow.
2. Do not take Levitra or Viagra for 24 hours after procedure. If you use Cialis, do not take for 48 hours after procedure.
3. If you experience any chest pain, shortness of breath, or severe dizziness, please call 911.
4. Please increase your fluid intake today, unless otherwise directed.
5. You may resume all medications unless otherwise directed.
6. If you have any questions, please call 419-842-3000.
