The topics and presenters were chosen to address the entire spectrum of women's health and wellness - not just physical health, but also mental, emotional, and financial well-being. Of course, women's healthcare concerns will be at the forefront of discussion. The overall purpose of the forum is to educate women in the community on the prevalence of heart disease in women and to help them understand that heart disease is a woman's disease.

We look forward to another great year. For more information or to reserve your seat at this great event, please contact me at 419-842-3002 or by e:mail at DeeYour@aol.com Please RSVP by Friday, February 1, 2008.

See you at our event,
